

## Manuvering-The Deadly Phase of Flight

Losing control can have deadly consequences. During this event we will cover the most lethal flight phase, technological solutions, human solutions, and go over 4 case studies with help from the audience. Come prepared to interact during this seminar! Find out how to better prepare for and avoid losing control during the maneuvering phase of flight.

**Directions:** Seminar will be held in the 1st floor cafeteria. Once you enter the building from the front entrance, walk past the security desk, turn right and follow the hallway to the cafeteria.

\*\*\*Inclement Weather\*\*\*\* If there is a chance of snow/ice or other inclement or dangerous weather conditions the seminar may be rescheduled. A decision will be made by 15:00 the day of the seminar. Please call 610-595-1500 ext 240 and listen to the voice message. It will be updated if there is a cancelation.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
